

# No More War on People's Park

UC receives \$22 million a year for co-managing  
two nuclear weapons labs.

Peoples Park's anti-war history is inconvenient  
for the university. But People's Park is our  
most famous historic landmark. Its stage is protected  
by the courts. We need housing. But the more  
housing we build, the more parks we need.

UC hates to admit having lots of locations for housing.  
Say no to another costly war on southside. Stand up  
for the park. Learn the history. **“Go to the  
protests. Don't be afraid. They can't jail us all.”**
